

APPRENTICE RECRUITMENT

Developing Talented Engineers
in Devizes

www.crossmanufacturing.com

Why Choose an Apprenticeship?

- Earn while you learn
- Obtain nationally recognised qualifications
- Gain practical hands-on experience
- Embark on a successful career

The Cross Apprenticeship Scheme

- 3 year development programme
 - Year 1 - Performing Engineering Operations (Mechanical)
 - Year 2 and 3 - ONC / BTEC / NVQ level 3 / C&G2800 level 3
- On-the-job training
- In-house training school plus college education
- Technical certificates
- Mentorship

What our Apprentices say

“Our in-house trainers are passionate about engineering and passing on their skills. I’ve learnt many new things this year.”

“I enjoy the mix of hands-on learning and every day is different. Great support from everyone within Cross”

“I feel I am continuously progressing. We get the opportunity to produce engineering tools, which is extremely satisfying.”

“The Cross Apprentice Scheme stands out from others as the first year is 100% focused learning. It’s a way of learning in a safe environment”

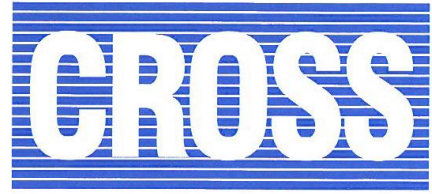

Requirements

- You must be living in England and not taking part in full-time education
- Aged 16 or over
- A minimum of 4 GCSEs grade A* - C including Maths and English

Our 2017 Apprentice Recruitment is now underway

Apprentice Recruitment, Devizes

Cross Manufacturing Co. (1938) Ltd. is an independent, family-owned company which supplies heat resistant sealing products to the Automotive, Aerospace and Power Generation industries. We currently employ over 300 staff, making us one of the largest companies in the Devizes area.

We pride ourselves in our Apprentice Programme, which continues to be at the foundation of our company.

The Apprenticeships:

The **Apprenticeship Scheme** is a 3-year programme, commencing August 2017.

Cross Manufacturing Apprentices earn a salary working in our Devizes factories alongside experienced engineers, achieving practical hands-on experience.

We have vacancies for:

Mechanical Engineering Apprenticeships and Electrical Engineering Apprenticeships

Mechanical Engineering Apprenticeship: Our Mechanical Engineering Apprentices will use a variety of manufacturing processes such as milling, turning, welding and hand work, and a range of equipment including CNC and manual machines. It will also involve the production of reports, reading and understanding technical data and drawings.

Electrical Engineering Apprenticeships: Our Electrical Engineering Apprentices will learn to install, maintain and repair electrical services (e.g. lighting, sockets and plant services), understand wiring and circuit diagrams, inspect and test electrical installations, diagnose and rectify faults on a range of circuits and equipment. You will work indoors and outdoors and must be prepared to sometimes work at height.

During the Apprenticeship time is spent attending Wiltshire College, Chippenham on a day-release basis to gain an industry-recognised qualification.

Open Evening:

Wednesday 25th January 2017 at 6pm

- Find out about our Apprentice Scheme
- Talk to our Apprentices, Managers and Directors
- Tour the Devizes factories
- Find out more about Cross Manufacturing

Students, parents and carers and school staff welcome
